About

Thuan is a data engineer at Travel2Pay. He is the founder, chief engineer of the Travel2Pay business intelligence system with a data warehouse at its core modeled using Kimball's Dimensional Modeling methodology. He has hands-on experience in building an analytic system which transforms unorganized, scattered data into proven impactful insights.

Experience

Travel2Pay

3 yrs

Data Engineer

Full-time

2019 – Present

· 2 yrs

Ho Chi Minh City, Vietnam

Founder, chief engineer of the Travel2Pay's business intelligence system with a Kimball style data warehouse at its core.

Main responsibilities:

- Work with business users (usually C-level executives and product managers), find ways to materialize their ambiguous needs of insight into reality.
- Take care of everything related to technical aspects of the system, from designing, building to maintenance.
- Research new things, see potential, build prototype, bring to production.

The BI system has been proven impactful and being used intensively everyday by Travel2Pay's C-level executives and others.
