Senior Java Developer
FI Solution
Jan 2015 – Apr 2016
· 1 yr 4 mos
Hà Nội, Việt Nam

Because I'm not only a Java developer but also a team leader, beside finishing my owned task in development, I have to take care everything in projects.
Beside technical tasks, because of my very good analytical skills, I tried to transfer every user's needs to my members to get the best results.

Java Developer
FPT Information System
Dec 2012 – Dec 2014
· 2 yrs 1 mo
Hà Nội, Việt Nam

In early states, because of my deep understanding on business, my duty was building prototypes of system to show how the system looked like.
In development states, with great taste on designing, I designed whole system user interface by CSS and j-Query.
When developing modules, I took care all modules which manage social insurance objects, examples: managing profiles, managing services they joined, managing transactions between VNPost and objects. Besides that, I also developed modules: Administration, services management and many category managements.   ... see more
